Defeat of San Francisco's New Charter.

AMENDMENTS MEET LIKE FATE

Hunting Mrs. Billions' Murderer. Races at Bay District—Boiler Explosion at San Francisco.

Associated Press Dispatches to the HERALD. Owing to trouble on the Overland wires and those between San Francisco and Los Angeles, the telegraphic reports from other places are light this morning.

THE THREE AMENDMENTS. Probabilities That They are All Defeated.

SAN FRANCISCO, April 12.—Returns up to midnight from outside San Francisco indicate that all three Constitutional Amendments have been defeated. The vote in San Francisco from 150 complete precincts out of 176 show the following result: For number 1, 13,842 against 6,143; for number 2, 14,232 against 5,964; for number 3, 14,444 against 5,795. It is believed, however, that majorities in this city will not be sufficient to overcome the adverse votes in the country.

SAN FRANCISCO, April 12.—Twenty-five votes cast for amendment number 1, twenty-two for amendment number 2, eighteen for amendment number 3, twenty-one against amendment 1, three against amendment 2, and seven against amendment 3.

San Francisco, April 12.—A gentleman arrived from Chicago says the Chinaman who murdered Mrs. Billions will surely be caught to-day, as his tracks along the river, on the Chico side, were followed last night up to where he had been yesterday. He says nearly every man on the west side of Butte county is out with a gun, searching every rod of ground in the vicinity. The excitement increases at the prospect of capturing the desperate murderer.

GRIDLEY, Cal., April 12.—Chinese camps near here were closely searched to-day for the Billions murderer but no clue was obtained. A writing teacher met a Chinaman named Maryville, near Livermore, last night. The teacher told him that he had killed a man named Billions. The teacher told him that he had killed a man named Billions.

Church and C. Chisholm; Marshal, J. H. Bartlett; Assessor, W. B. Bennett; Recorder, Philip Stewart. There was no political line drawn in the city election. Of the city officers two trustees, two members of the Board of Education and the Marshal are Republicans in sentiment. One trustee belongs to the American party and the Treasurer, Assessor, Recorder and one member of the Board of Education are Democrats, but all were elected as independents.

A LAND CASE

In Los Angeles County Decided Against the Railroad.

WASHINGTON, April 12.—The Secretary of the Interior affirmed the decision of Secretary Teller, his predecessor, in the case of E. E. Duncanson against the Southern Pacific Railroad Company. Duncanson had entered certain lots in section 23, township 2, range 7, of Los Angeles land district, which under the survey made in 1859 by W. P. Reynolds, were alleged to be within what is now known as the Jurupa Rancho and were therefore claimed by the Railroad Company as within its grant. The grant of the Rancho being all included by the survey made in 1873, by Deputy Surveyor Minton, the lots were found to be outside of the railroad grant. Secretary Teller decided the case in accordance with the survey in favor of Duncanson, but the railroad was not satisfied and sought to have all the ruling reversed. This Secretary Lamar declined to do.

AUTHORITY FORSOOTH! Shall a Murderer Escape Owing to Technicalities?

SAN FRANCISCO, April 12.—Ah Shee, one of the steerage passengers on the steamer City of Peking, who is charged with kicking to death Joe Shing, another steerage passenger, was brought into port in irons. The Coroner refuses to hold an autopsy over the remains of Shing, claiming he has no authority to do so, as the alleged homicide was committed on the high seas beyond his jurisdiction. Chief Crowley thinks the case is wholly without his jurisdiction also. The United States authorities seem to think the case belongs to them because the killing was on an American vessel, but as the case is without a precedent, they are doubtful as to the proper mode of procedure.

SAN LUIS OBISPO. Preparations to Boom the County to its Full Extent.

SAN LUIS OBISPO, April 12.—At a meeting of the Board of Trade last evening a committee was appointed to prepare a plan of organization for an agricultural association in this county, and a meeting for the formation of such an association will be held next Tuesday night. Extra editions of local publications are to be sent out, together with lithographs of places and scenes and maps of the county.

SAN FRANCISCO, April 12.—E. A. Reed, who arrived from China last week on the steamer City of Peking, was found dead in bed in his room at the Occidental hotel this morning. A bullet wound was found in his head, and as all his valuables were found intact, he evidently had committed suicide. No cause is known. He was 28 years of age and a native of New York.

New Jersey Ballot-Stuffing Tactics.

THE PANHANDLE ROBBERIES.

Dr. McGlynn Badly Received at Cincinnati—Raymond's Body Brought to New York.

Associated Press Dispatches to the HERALD. JERSEY CITY, April 12.—The entire Election Board of the eighth precinct of the second district of Jersey City was arrested this afternoon for tampering with the ballot box. At the noon recess a policeman saw Clerk Dolan putting the registry book into the ballot box, the book containing about thirty Democratic tickets. The tickets were folded and several dropped into the box before the Clerk could be arrested.

NEW YORK, April 12.—The entire Election Board of the eighth precinct of the second district of Jersey City was arrested this afternoon for tampering with the ballot box. At the noon recess a policeman saw Clerk Dolan putting the registry book into the ballot box, the book containing about thirty Democratic tickets. The tickets were folded and several dropped into the box before the Clerk could be arrested.

THE PANHANDLE THIEVES. Still the Engrossing Topic of Conversation.

PITTSBURG, April 12.—The wholesale arrests of employees of the Panhandle railroad for robbing freight trains continues to be the engrossing topic among railroad men and citizens. Superintendent Taylor's office was besieged from early morning by men in search of employment. The road is now fully equipped, and there is no delay in the movement of freight. No arrests have been reported since last night. Speaking of the probable conviction of the men now in jail, Special Agent Rice said, this morning, that sixty men are now under arrest. There were not more than one or possibly two, who stood any chance of being shown not guilty.

A bill was introduced into the State Legislature last night, which was intended to cover such cases as the railroad car robberies brought to light in this city yesterday. The bill is in the shape of an amendment to the Penal Code. At present there is no specific law against breaking open a car unless it is proved that the thief was armed with intent to commit felony.

While rummaging through the effects of one of the ringleaders of the Panhandle robbers this morning, Special Officer Miller discovered a package containing a number of live cartridges, sufficient to blow up the largest building in town. The discovery created considerable alarm and the cartridges were handled very tenderly. Further investigation disclosed a lot of fuses and caps; in fact all the necessary paraphernalia for the successful firing of cartridges. Immediately after the finding of the dynamite an investigation was begun, the result of which, however, the detectives refused to make public. They even declined to give the name of the man in whose room the stuff was found. Officer Miller indicated that the object of the robber in securing and storing the dynamite was known, and that it would make good reading when the proper time came for its disclosure.

DR. MCGLYNN AT POKKOPOLIS. He Receives the Cold Shoulder from Business Men.

CINCINNATI, April 12.—Dr. McGlynn arrived this morning. Some of his friends desired to introduce him to the representative business men of the Chamber of Commerce and to that end called Major John Byrne, of the Chesapeake and Ohio road to make the introduction. Major Byrne declined, saying that as a Catholic, loyal to the precepts and the authority of his church he had no sympathy with Dr. McGlynn's position, and that as a good citizen he could not in any sense recognize the false theories which the doctor was attempting to propagate. As a member of the Chamber of Commerce the same views compelled him to decline. Others who were approached took the same position and thus Dr. McGlynn was not a visitor on 'change.

RAYMOND'S REMAINS. Preparing for the Funeral of the Dead Actor.

NEW YORK, April 12.—The remains of the late John T. Raymond arrived here to-day. Manager Walter A. Lamb and five members of his company arrived with the body. A large deputation of actors met the funeral party at the depot. A temporary coffin, containing the body, was taken to the residence of Mrs. Raymond in East Thirty-second street. The funeral was a natural expression of grief. Services will be held at Little Church Around the Corner, at 10:30 A. M. to-morrow. It is feared by some of the friends of Raymond that he may have died from an overdose of morphine, as it is asserted by one who was at Raymond's bedside when he died that after the administration of morphine he never recovered consciousness.

Making Concessions. St. Louis, April 12.—It transpires that the Interstate Commerce Commission has made the same concession to the Mobile and Ohio Railway as it made to the Louisville and Nashville in respect to the long and short haul, in connection with water way competition. The road is now using its own tariff.

Signed Their Commissions. WASHINGTON, April 12.—The President has signed the commissions of Messrs. Pattison, Anderson and Little, as commissioners to investigate the Pacific railroads and has transmitted them to the Secretary of the Interior for issue.

Old Tanning House Suspended. PHILADELPHIA, April 12.—The old house of Kirkpatrick, Kenzie & Co., tanners, has suspended. The firm recently made an assignment. The liabilities are reported to be \$200,000.

End of a Strike. CINCINNATI, April 12.—The contractors have to-day acceded to the demands of the striking carpenters, and about 650 are at work.

FIRE AT ST. AUGUSTINE.

Several Important Buildings Burned in the Ancient City.

BOSTON, April 12.—A dispatch from St. Augustine, Florida, dated to-day, says: "The St. Augustine Hotel took fire at 2:30 this morning and was destroyed. The old slave mart is also gone, and the ancient cathedral is in flames. Edwards Hotel and half a dozen small buildings are also on fire, and it seems inevitable that the Florida House and the opera house must go. Danger of the destruction of the whole town from the plaza to the city gate is imminent. All of the seventy-six guests at the St. Augustine Hotel gained their lives, as did also all the help of the house and the guests of the Edwards House."

ST. AUGUSTINE, April 12, 3 P. M.—The fire has been stopped at Treasury street and the main portion of the town is safe. The county courthouse and Venable's museum were destroyed. The losses on the St. Augustine Hotel aggregate \$100,000. There is no insurance.

SMUGGLED CIGARS. Seizure of Imported Smokes on West India Steamers.

NEW YORK, April 12.—The custom house authorities here are making desperate efforts to break up the extensive business done in smuggled cigars on the steamers running to Cuba and the West Indian ports. To-day an extensive seizure of cigars was made. As soon as the Steamer arrived in port everything on the vessel was sealed up by the custom house officers who went through the ship and found concealed in various parts, 2669 cigars and 75 bundles of cigarettes. The captain was sent for and explained that he merely signed the manifest and placed before him by the purser who made it up at quarantine. The explanation was satisfactory. The following additional seizures were added to the list in the Treasury agent's office: Steamer Cientegros, 1600 cigars, Niagara, 400 City of America, 3400, Santa Rosa, 1400 cigars and 500 cigarettes. All goods were entered on the ship's manifests as "stores."

The Drouth in Texas. GALVESTON, Tex., April 12.—The drouth throughout Texas continues unbroken. Late advices from San Antonio and vicinity say that the rainfall of Saturday and Sunday in that section proves insufficient. The signal officer at San Antonio reports a precipitation of one-quarter of an inch Saturday, and only one-twentieth of an inch yesterday. It is thought that further south in the grazing district bordering on the Rio Grande the precipitation was heavier. Complaints from the cotton belt are rapidly increasing.

Blaine Recovering. FORT GIBSON, Ind. Ter., April 12.—Mr. Blaine, after eating a good supper of bread and milk last evening, passed a fairly quiet night, and this morning was still improving. An examination of his lungs by Post Surgeon Byrnes showed that the inflammation was subsiding and that there had been no fever since Sunday. A hearty breakfast this morning, and Byrnes states that with the weather in its present favorable condition and his appetite as it now is Blaine will be able to leave to-day.

A New Knight. WASHINGTON, April 12.—Dr. J. W. Hoffman, of the American Bureau of Ethnology, has been named by the King of Portugal a chevalier of the order of St. James, one of the most ancient orders of Christendom.

Death of Henry Dockweiler. Henry Dockweiler, one of the old residents of Los Angeles, died yesterday morning, after a short illness. Mr. Dockweiler was a native of Bavaria, aged 63 years. He came to the United States when a boy of thirteen, and spent the early part of his life in the Western States. He came to Los Angeles in 1857, and first tried his luck as a miner in the San Gabriel cañon place claims. He then settled in this city, went into business, and was successful. He built the row of brick houses at the northwest corner of Fort and First streets in 1871-2, and this block was esteemed at that time a very great thing of enterprise on the part of the builder. Subsequently he invested a large amount of money in the Castle Dome mines, Arizona. This proved an unfortunate venture, and one from which the deceased never fully recovered financially. Mr. Dockweiler was held in many positions of trust and honor by his city. He was for several years a member of the Council, and always proved an active, efficient and honest official. He was a man of good purposes and kindly instincts; reliable, trustworthy and public-spirited; beloved by all who knew him; a fond husband, a kind father, and an irreproachable citizen. He goes to sleep carrying with him a sorrowful farewell from all who knew his kind and noble nature.

The officers for the current year are as follows: Mrs. R. M. Widney, president; Mrs. W. B. Herriott, first vice-president; Mrs. F. C. Howes, second vice-president; Mrs. W. B. All day yesterday these ladies, assisted by many others, worked untiringly to get the exhibit in order. The place is a great improvement on that of a year ago. Hon. Henry T. Hazard and his associates have laid the community under obligations to them for their enterprise in erecting such an edifice for these purposes.

THE PAVILION. Is 176 feet long, 120 wide and 100 feet in height from the bottom of the base to the ridge board. Taking in gallery and vestibules the area embraces 47,000 square feet of floor space. It took much pressing to get it ready for the opening of the flower festival, and it is still in an unfinished state, the plastering and much of the interior finish being undone. As it is the place is admirably fitted for the use it is now being put to.

Every one will have an opportunity for a nicker to record his name and residence in the most beautiful register ever laid before the public. The register will hold nearly 20,000 names, and when the fair closes the volume will be placed in the Flower Festival Home for safe keeping and inspection. Future tourists will have the pleasure of seeing the names of friends who registered during the fair. The first line in the book will be auctioned off to the highest bidder, who will have the privilege of recording any chosen name. Several parties are making up purses to compete at the bidding. For the top line on each page will be charged 25 cents; the other lines 5 cents each. Mrs. D. G. Stevens, Miss Maudie and other ladies will have charge of the register day and evening. Don't forget to see the register.

A Beautiful Scene.

We doubt whether any place in the world, outside of the famous Vale of Cashmere, could present so magnificent a floral spectacle as that which was displayed before the thousands who were present last night at the Pavilion to witness the inauguration of the Ladies' Flower Exhibition.

The immense building, which is yet incomplete, was a maze of floral loveliness from the ceiling to the floor.

The profusion and variety of flowers were perfectly bewildering, and it required patience and pause before one could settle down to a calm contemplation of the magnificent scene.

The sight was at once so novel and striking as to dazzle the beholder at first, then to fill him with wonder and admiration, and finally to intoxicate him with delight when he found himself wandering in a labyrinth of roses and violets, and drank in the delicious fragrance emitted by all the choicest varieties of the kingdom of Flora.

It was a scene to recall the dream of Titania; or to transport one to the gardens of Ispahan, where the air is redolent of the aroma of the rose from which the precious star is expressed; or to make one fancy that he was breathing the sweet atmosphere of Gul; or dozing delightfully on the banks of the Euphrates; or strolling dreamily through the natural conservatories of Teheran; or suddenly translated from this rude world into Fairyland. No one could behold the gorgeous wealth of flowers so tastefully and artistically arranged in all sorts of beautiful and fantastic shapes—now adorning a miniature palace; again presenting a floral kiosk; then turned into a colossal rigid ship (not a chonfleur) or a full rigged ship; or forming a variegated embankment encircling a fountain playing a crystal column high into the air;—no one, we say, beholding a scene of such voluptuous beauty could help to realize the application to Southern California of the lines of Tom Moore:

"If there's a heaven on earth, it is this—it is this."

We do not know how this magnificent exhibition strikes the average Eastern visitor. While their expressions last night were those of admiration, yet we believe they must have had something of a feeling more intensely gratified at the picture of loveliness than was realized by those who have lived in this favored region for a long term of years. These have been habituated to the generous profusion of nature, and it requires an effort for them to enthuse over even her richest and choicest gifts. But those who have lived all their lives where she is niggard of her benefactions, and where the rigors of temperature render it only possible to keep up an appearance of floral life by hot-house nursing and unflinching care, must have experienced a new and exhilarating sensation—a sensation that the country that can at short notice furnish so magnificent a display is one in which they would wish to spend the remainder of their days. And we have no doubt that this effect was produced upon many of the strangers who were there last night, and will be produced upon a large percentage of all who visit the Floral Fair during the week. From the effect produced to the fact of actually carrying out the effect, is but a step; and thus we may safely say that this exhibition will be the means of adding many worthy people to the permanent population of Los Angeles. The ladies who have worked so zealously, so laboriously, and with so much artistic taste in giving Los Angeles this incomparable exhibition, have laid the community under obligations which, rich as it is, it is yet too poor to pay. Their reward is in the splendor of their work.

The interviews we give elsewhere with our leading business men upon the operation of the new schedule of overland freight rates, the result of the passage of the Inter-State Commerce law, will open the eyes of our people to the danger which confronts us. If the fourth section of that law is to remain in force, a d rate rates made by the railroads in pursuance of it are to be maintained, then very serious and disastrous results are to follow. Business houses with large capitals may be able to pull successfully through; but many small houses

will have to go to the wall. The East is going to lose a very large portion of its present business with and Kansas to the enormous freight rates now in force are to continue; and Europe will receive the trade which Eastern manufacturers must lose. The railroad rates are higher upon many classes of goods than the tariff of the United States on the same articles; and it will be found cheaper to have foreign manufactures shipped directly to San Pedro, and pay the duties required by the Government, than to order them at Eastern factories and pay the freight upon them to this city. Let us give an illustration of how this thing will work in a line of business with which we are perfectly familiar. News paper, such as we use, costs at the mills in the Eastern States 5½¢ at 6 cents per pound. Freight on the same, at present schedule rates, is \$3.35 per hundred pounds. That brings the cost, laid down in Los Angeles, up to \$8.85@9.35 per hundred pounds. We received a proposition from a responsible house yesterday, to deliver us paper here from Germany, to be brought here by sea, at \$6 per one hundred pounds. In this connection our correspondent writes that "Isthmus rates have also advanced so that nothing can be saved that way, considering the bad condition paper usually arrives in from Panama." This leaves the Cape Horn route alone available, and as paper is much cheaper in Germany than in the United States, it is probable we will find ourselves constrained, through the operation of the Inter-State Commerce law, to patronize foreign instead of home mills. Now, there are many other lines of goods that are exactly in the same category as paper, as regards cheapness of importing them from foreign countries rather than from the East. Therefore the effect will be that our custom will fall away from Eastern manufacturers and go to foreign markets. Wonderful sagacity in legislation that can bring about so unpatriotic a result! But as other portions of the country have received at least temporary relief from the section of the law which is held sponsor for this deplorable state of affairs, this coast is entitled to and should receive the same relief. The railroads doing our overland business ought, of their own volition, to have petitioned for the suspension in their favor of the fourth section before this. They have not done so, and nobody can understand why. It is now the duty of our people to urge every means in their power to urge the railroads to apply for this suspension. Let us have that relief at once, and we shall then be enabled to prepare for the worst, if the worst must come.

The deplorable accident which happened at the west end of the East Los Angeles bridge last evening teaches a significant lesson. The city authorities ought to enforce precautions such as are enforced in Eastern and European cities to prevent mishaps of this character. Where traveled thoroughfares and railroads intersect each other bars are let down when trains are moving on the track, and raised when the track is clear. Had this simple safeguard been provided a valuable life would have been saved yesterday. But the whole space between the junction of Upper Main and Alameda streets and the East Los Angeles bridge is now imminent of sudden death to persons in vehicles. Either the entire distance should be spanned by an elevated wagon road or Chavez street should be so improved as to give the people another easy thoroughfare to East Los Angeles. If this street were made practicable and the Buena Vista street bridge finished there would be no excuse for driving to East Los Angeles through the netway of rails on San Fernando street. The only wonder is that so few serious accidents have been recorded in this dangerous locality.

A SERIOUS and painful defect in the Act of Congress regulating the contest for membership by the House of Representatives in the absence of power to compel the attendance of witnesses before the officer taking depositions in the matter. Section 114 of the Act provides for the issuance and service of a subpoena, with no resort to an attachment in case the witness refuses to attend. To be sure, section 116 declares that the non-attending witness "shall forfeit the sum of \$20, to be recovered by the party at whose instance the subpoena was issued," and shall be liable to a prosecution for misdemeanor. But such remedy is simply nugatory. We do not believe that Lynch and Vandever have leisure and disposition for such civil and criminal remedy. It is a fact that more than one-third of the witnesses subpoenaed by Mr. Lynch refused to attend, and the presumption is that Mr. Vandever will encounter the same fate, and thus it may happen that the certified member or his contestant may lose his case by the refusal of witnesses to obey subpoenas.

DAILY HERALD.

A TWO EDGED SWORD.

How the Inter-State Commerce Bill Acts.

INDIGNATION ON ALL SIDES.

Arrangements Made For Direct Trade With European Manufacturers.

The sentiment of the merchants of Los Angeles on the Interstate Commerce Bill is a unit against that enactment. The wholesale dealers in nearly every branch of trade have laid in stocks of staple goods to last them about six months, so they feel safe in ordering goods from Great Britain and Europe that can come by rail or steam without touching the United States until they arrive at San Pedro, and thus escape the oppressive provisions of the bill. Wholesale merchants of large capital can do this and suffer no hardship, but men of small capital cannot carry on business in that way and must go out of business. During the past few months a new settlement has been formed each week in Southern California, and plans of water distribution have been made for every one. These plans contemplate the laying of hundreds of miles of iron pipe to carry water under pressure through the streets and houses of these new towns. The increased freight on iron pipe from the manufacturers in Chicago and St. Louis is four hundred per cent. This rate amounts to prohibition, and orders for this staple for Southern California are being daily countermanded. Members of Congress in the Middle and Eastern States who have stock in iron factories that depend largely upon the California trade will see their mills shut up and their machinery lying idle in consequence of the effect of the Interstate Commerce bill. They then may be reached and change their vote in the next Congress. There will be idle cars across the mountains in a few weeks. The trade of Southern California under the operation of this law is lost to Eastern manufacturers.

One of the greatest evils of the bill is visited upon the raisin makers. The new tariff imposes a freight of 77 cents per box of 20 pounds. The old rate was 15 cents per box. This increase of freight shuts the Eastern markets to a million dollars' worth of raisins. The remedy proposed by some is to ship from San Pedro via the Canadian Pacific in bond to Montreal and thence to New York. There are grave objections to this plan. In the first place a freight charge has to be paid to San Pedro, a lighterage to vessel, a freight and insurance to British Columbia, a freight to Montreal, and another from Montreal to New York. This would entail a journey of about 5000 miles and cost at least half the value of the raisins. The majority of raisin makers are men of moderate means and have to sell early to realize and keep the wolf from the door. They cannot afford to ship by so circuitous a route. Besides, their customers are in Omaha, Denver, Minneapolis, Kansas City and other interior towns that could not be reached easily by the Canadian railway. A shipment by the Isthmus is preferable, or by way of Cape Horn, but these routes are long and expensive. As a consequence the small raisin makers would be obliged to sell to capitalists at a low rate, and these purchasers could then ship to Cape Horn, at their own convenience, when a sufficient cargo should be secured.

The same course would have to be pursued with wine, wool and brandy. But at the same time, while our citizens are charged from 300 to 1400 per cent. advance on goods they purchase in the east, they are charged from 200 to 600 per cent. on what they ship to the east. It is thus a two edged sword, and makes California the most heavily taxed State in the Union. California produces what the Eastern States need, and the Pacific Coast has not. The business is nearly all a "long haul." The wine, wool, brandy, or raisins, canned goods and lumber of California by this bill are shut out from the great markets of the world. It is said by some that the effect will be to increase manufacturers here, but the raw material to be used in the manufacturing will have to be brought to California in three cases out of five, under these extortionate rates, and that will be prohibitory in making nearly all kinds of agricultural machinery and steel and iron goods.

ARREST OF STREET RAILWAYS. The old freight on railway rails from Chicago used to be 50 cents per 100. It is now, under the new law, \$2.45 per 100. Does anybody believe that railways will be built in city or country at these extravagant rates on rails? If the rails are made here they must be made from steel that has paid high freight by rail or else from steel brought by sea at a loss of three to six months.

Messrs. Luitwiler & Co. report that the new rates come especially heavy on them. They sell a carload of farm wagons per annum, or 1500 wagons per annum, at which the rate under the old tariff was 70 cents per 100, while now it is \$3.35 per 100. At these rates of freight the old \$7.70 per wagon, and the new \$25.30, the tax being \$17.60 to every farmer buying a lumber wagon in California, under the new law. This tax alone on the farmers of Los Angeles, who buy such wagons, amounts to \$25,000 per annum. They favor the suspension of section 4.

Schoder, Johnston & Co. stated that the advanced rate on their hardware was \$1.90 per 100. They want the law repealed, and favor a meeting of merchants to petition for a suspension of section 4.

All the wholesale hardware dealers are in favor of a suspension of section 4 and a repeal of the law. The Vero Hardware Company, is opposed to the law, which raises the freight of his sheet iron and water pipe 500 per cent. Even cast-iron sash weights are now charged 600 per cent. advance. Mr. Lacy thinks the law is enforced that a line of steamers will have to be put on from New York or Liverpool to San Pedro. He is in favor of a suspension of section 4 and a repeal of the entire law at the next session of Congress. He thinks the law will interfere with the business of Los Angeles as a distributing point.

Mr. Hance, one of the leading druggists in town, was interviewed and spoke of the law as "an abomination" that should be done away with. The law taxes his goods about 500 per cent.

Samuel Meyer, the oldest crockery and glassware merchant in the city, states that if any person will pay him the freight according to the new tariff, on his goods now in store, he will present him or her with all the goods for nothing. Those who favor the law can get a stock of goods for nothing.

INSECTICIDE.

We beg to call your attention to an article we are manufacturing for the purpose
of eradicating and destroying the

Scale Bug, Harvest Flies, Tree Hoppers, Plant Lice, Etc.

It has been fully tested by the Agricultural Department of the State University, and
pronounced a success, the endorsement of which we append. It is put up in convenient
forms for use. The chemicals employed in same will not hurt the most tender bush, as
has been fully demonstrated. It is put up in liquid form ready for use in barrels and
5-gallon cans, and in paste form in 2 and 5-lb. cans and barrels, which must be diluted
before using; therefore, we recommend the liquid form as being the best for use.

(Copy of letter received from the University of California, College of Agriculture, Berke-
ley, dated Dec. 4th, 1886.)
J. N. Knowles, Esq., Manager Arctic Oil Works, San Francisco:
Dear Sir—We have lately tested the Insecticide preparation of Whale Oil Soap sent
by you to us, and have found it to be very effectual against the Scale Infesting Orange
and Bay Trees; also against the Thrips. From our previous experience with a similar
composition, I think it will be found fully effectual against any small insect pests not
specially protected like some of the armored scales, and against which any Wash short
of strong lye cannot be used.

We ask you to give this preparation a thorough test, feeling confident that it will do
all we claim for it. It will cost but a small amount to save your fruit trees and flower
plants from the deadly insect. Give it a trial and be convinced. Yours truly,
E. W. HILGARD, Professor State University.

Mr. Lichtenstein is a well known banker in San Francisco, and has just returned from an extended trip through all the Middle and Southern States and Mexico. His charming and entertaining wife was formerly Miss Collins, of Philadelphia, her parents being of the best known and most highly respected families in the Keystone State. The happy couple will visit every point of interest in Southern California, and then return to San Francisco where they will take up their permanent residence.

News Notes.

The Board of Supervisors will this morning examine the plans of the competing architects for the new court house.

The Fire Commissioners will meet this morning at 10 o'clock to investigate the conduct of firemen Kinney and Berthold in the matter of Edith Moore.

The Board of Directors of the Sixth District Agricultural Association will meet to-morrow afternoon at 1:30 o'clock at the office of Mr. Lichtenberger.

Hon. H. T. Hazard has made arrangements with the various street-car lines to give transfers to the Pavilion. No matter which road a person takes, it only takes five cents to land him at the door of the Pavilion.

The Lynch-Vandever contest resumes at 10 o'clock this morning, when testimony for General Vandever will be taken before notary George J. Denis. Mr. F. W. Cherry, short hand reporter, will take down the testimony.

Some vandals, a few nights ago entered the yard of Dr. E. C. Clacius, corner of Pio and Figueroa streets, and stole a number of beautiful flowers. The thief was a female, as the imprint of a tiny foot was found in the soft soil.

Sheriff Kays yesterday appointed A. H. Seckatz as a special deputy to accompany the Sunday Santa Monica train. Another deputy will be appointed in a few days for the same purpose. W. L. Banning was also appointed as Deputy High Sheriff at Wilmington.

Martin Lehman started out yesterday to obtain subscriptions in order to warrant him in bringing here the American Opera Company for four performances, beginning May 9th, and though he had not as much time as he wished to devote to the matter, in a very short time he had \$1500 down on his list.

The death of Mr. Herbert Butcher, a well-known Englishman, is chronicled in to-day's issue, and will be sad news to his many friends. Mr. Butcher came to this country from England some ten years ago, being a resident of Los Angeles ever since, and has always been a universal favorite here. His short illness terminated fatally early yesterday morning.

Mr. Grismer played *The Field of Honor* last night at the Grand to a good house. The cast was strong, and the thrilling scenes moved along with marked effect. For to-night *The Wages of Sin* is the attraction. The role taken by Miss Davies is exceedingly interesting, and it is one of her best characters. Mr. Grismer, as the villain, is in the play, is also up to a perfect degree.

The Democrats of the First Ward will caucus at the Southern Hotel to-night and select a candidate for Council to fill the place of Mr. Lambie, resigned. In another column will be found a communication calling upon Mr. Vickery, of the east side, to allow his name to be used. There is not a better man in the ward than Mr. Vickery, and if he accepts the nomination he will certainly be elected.

Postmaster Green said yesterday that the article in the HERALD in reference to his removal and the appointment of Captain Barrett was true to the best of his information. Mr. Green will certainly be removed for political reasons alone, for he has worked harder in the execution of his duty than any Postmaster Los Angeles ever had. He will go out of the office with the kindest feelings towards all, and he will most assuredly carry with him the best wishes of the community.

We have learned that I. W. Lord, of Lordsburg, has secured the right to the Terry street railroad patent for this coast. The owner of this new cable patent is now stopping at Pomona for his health, and being an old friend of Mr. Lord's, and knowing his energetic business qualities, readily agreed to place the right in his hands. It is claimed that the Terry cable system possesses great advantages over the Hallidie. It can be built much cheaper—\$20,000 per mile—and can be run on sharper curves and cross right angle cables without the gripper being moved. Mr. Lord will immediately proceed to place the chains of the Terry system before the street railroad companies of Los Angeles.

An Abundance of Water.

The new town site of Lordsburg will be put upon the market as soon as all the improvements now being made upon it are perfected. It is beautifully located, and laid out in rectilinear streets. Those running one way designated by numbers and those running the other by the letters of the alphabet. The water supply of this town is abundant. It has three sources. First, artesian flows are struck at from 75 to 125 feet below the surface; second, wells of excellent soft water can be had at any point in the tract by sinking from ten to twenty-five feet; third, the owners of the town site have purchased the celebrated Indian Hill artesian wells, and are bringing the water of those wonderful springs into the town. The projectors of Lordsburg believe that they will have one of the most beautiful and thriving towns in this section of the state in the course of ten years. The San Bernardino and Los Angeles railroad will run directly through the centre of Lordsburg, and a branch road is contemplated to connect with the California Southern near Temecula.

JAIL DELIVERY.

Prisoners Make a Wild Break for Freedom.

There was a delivery of prisoners at the county jail last evening and fifteen of the incarcerated violators of the law made a bold dash and regained their freedom. The circumstances are as follows: On last Friday Col. Jim Thompson, the Jailor, applied to Sheriff Kays for a few days leave of absence for the purpose of visiting his ranch in Ventura county. He told the Sheriff that he had engaged J. Del Valle, a young man who is now a deputy Constable under Ed. Smith, and formerly deputy Jailor, to take his place during his absence. He also stated that Jack Clark would remain as deputy Jailor. Sheriff Kays, having confidence in Mr. Thompson's choice of assistants, readily gave the requested leave of absence. All went along nicely until last night shortly after 8 o'clock. At 8 o'clock every evening the prisoners in the upper tier of cells are all turned into the corridor and allowed to exercise there for a couple of hours. One of the prisoners, named Richard Morton, was suffering from an inflamed arm, caused by vaccination, and asked Clark, who was the only officer in the jail at the time, for a piece of sticking-plaster. Clark complied with the request and opened the door of the corridor to apply the plaster to Morton's arm. As he did so the horde of jail-birds, about sixty strong, made a rush for the unfortunate turnkey, and knocking him down, rifled his pockets of the keys to the outer door of the jail. The prisoners then made a break for the outer door and got it open and then began to swarm out like bees. The noise had attracted the attention of Joseph Myers, a man who is serving a short term and who is very trusty, and is the cook of the jail. Myers rushed up to the kitchen with a cleaver in his hand, and gaining the front door, stemmed the tide of escaping prisoners by sweeping he would cleave the skull of the next man who attempted to leave the jail. Clark had been carried out of the jail in the rush of the prisoners and gave the alarm. Deputy Sheriff Cruz and Deputies Constable Clements and Del Valle hastened to the scene and found the redoubtable Myers holding the remaining prisoners at bay. These fellows were soon replaced in their cells, and a count showed that fifteen men had escaped, whose names and offenses are as follows:

E. J. Stoddard, petit larceny; Burk Frank; burglary; Ed. Hayes, burglary; Fred. Peterson, burglary; James Patterson, robbery; David Dillon, robbery; Pat. Griffin, robbery; Richard Morton, robbery; C. B. Purcell, grand larceny; Geo. C. Jackson, grand larceny; Anderson Duffy, robbery; James Maloney, petit larceny; Ed. Davis, robbery; Albert Morrison, grand larceny; L. D. Fulton, robbery.

It is said that the escapes made a bee line for the railroad track, and the supposition is that they have struck for the north. Constable Smith, Deputy Jailor Clark and several special officers started in pursuit, and Sheriff Kays has hopes of capturing all of the liberty lovers.

J. Del Valle last night stated that when Mr. Thompson left he did not appoint him as Jailor. That Mr. Thompson said to him "Del Valle, I am going away, and during my absence I wish you would drop in at the jail several times a day and sleep there at night. 'This Mr. Del Valle' promised to do and has done so. He was at the jail about half past four o'clock yesterday afternoon. He says that he did not consider himself as Jailor in the absence of Mr. Thompson, while on the other hand Sheriff Kays says he was assured by Mr. Thompson that Mr. Del Valle would stay at the jail constantly. It is an unfortunate affair but such things will occasionally happen. The action of the trusty cook Myers stands out brightly and his sentence should be at once commuted. Among the prisoners whom he held at bay with the cleaver were several men charged with murder and assault to murder, but they preferred to stay in jail rather than run against the gleaming blade.

A Call on Mr. Vickery.

EDITOR HERALD—If the Democrats want to elect a first-class man to the City Council from the First Ward—one who would not only poll a great number of votes outside his party, but one who would do his full duty to all the people when he took his seat, and ever be true to the trust reposed in him, let them put up Vickery, of the East side. He would get there, and when there would be a mountain of credit to the city.
